## Productsheet

## Personal RitmScenar

Scenar technology, a breakthrough in non-invasive healthcare. Practitioners and research studies show that patients can recover up to 70% faster by interacting directly with one of the main control mechanisms of the human body: neural responses. Ritmedic genuine Ritmscenar devices meet high quality standards and the equipment is designed for daily use. The devices are manufactured in The Netherlands and are tested by the British Standard Institute to assure our high quality standards

## Specifications

### Navigation

- On/off button
- Indicator lights emitting diodes

### Material

- All materials meet the requirements for medical use

### Inclusive

- Batteries
- Leather case
- Warranty: 2 years

### Power supply

- Voltage: 9 V
- Battery type: 6F22, PP3
- Number of batteries: 1

### Sound

- Indication sounds

### Operating facts

- Operating temperature: 10 - 35 C
- Transportation & storage temperature: -50 - 50 C
- Weight: 0,2 kg
- Dimensions: 130 x 50 x 25 mm
- CE certificate

### Functions

- Continuous regime mode
- Amplitude modulation 3:1
- Frequency modulation: 30 - 120 Hz cycle 7 sec.
- Influencing impulse frequencies 14, 60, 90, 340 Hz
- Intensity: 1
